MICNON 2015 (http://micnon2015.org/) is going to be the first of a new conference series that is organized by the IFAC Technical Committee on Nonlinear Systems. The scope of the conference will cover all areas of nonlinear systems theory and applications in science and engineering, including control of nonlinear systems, analysis of nonlinear systems, modelling and identification of nonlinear systems and all types of applications in connection to nonlinear systems. English will be the official language of the Workshop. No simultaneous translation will be provided.

Meeting Topics include but are not limited to:

modeling and identification of nonlinear systems;
control of nonlinear systems;
stability and complex dynamics;
networked nonlinear systems;
stochastic control systems;
control of networks;
control with limited information;
nonlinear systems with time delay;
disturbance rejection;
switching control;
adaptive control and signal processing for nonlinear systems;
other related topics.

Important Dates:

October 1st, 2014
Paper submission
December 20th, 2014
Submission deadline
February 20th, 2015
Notification of acceptance
April 15th, 2015
Final paper submission deadline
June 24-26th, 2015
Conference dates

IFAC Technical Committee Main-Sponsor:
TC 2.3 Non-Linear Control Systems

IFAC Technical Committee(s) Co-Sponsors:
TC 1.1 Modeling, Identification and Signal Processing
TC 1.2 Adaptive and Learning Systems
TC 1.5 Networked Systems
TC 2.4 Optimal control
TC 6.1 Chemical Process Control
TC 9.4. Control Education

Conference secretariat:

Saint-Petersburg, ITMO University, Kronverkskiy av., 49, 197101, Russia
Phone: +7-812-595-41-28
Fax: +7-812-595-41-28
E-mail: info@micnon2015.org
